

Gärtner's autumn lawn fertiliser

- organic mineral fertiliser for all ornamental and home lawns
- to prepare for the winter months
- high potassium content to increase resistance to drought, winter damage and frost
- has a beneficial effect on the water balance of the grasses
- use from the end of August until the end of the vegetation period

Required quantities:

- spread evenly on the lawn areas (approx. 30 – 35 g/m²)

Application period:

Jan	Feb	March	April	May	June	July	August	Sept	Oct	Nov	Dec
-----	-----	-------	-------	-----	------	------	--------	------	-----	-----	-----

Tips:

- When spreading by hand spread in a crisscross pattern.
- Fertiliser can also be used to feed garden shrubs in autumn.

Dosage of Gärtner's autumn lawn fertiliser:

- 1 handful approx. 45 g
- 1 tablespoon approx. 16 g

Garden spreader dosage:

Appliance:	Setting:	
Gardena 410/411/412/415	4	The setting recommendations are reference values that should be compared with the actual amount spread.
Gloria 2215/Streuboy S 221	4	
Wolf WE 250/WE 45	4	
Wolf WE 251/WE 252	3	
Wolf WE 500	5
