

Gärtner's box tree fertiliser

- suitable for all box trees, on open land or in bowls
- helps promote even growth and dense foliage with its balanced nutrients
- after spreading work gently into the soil
- easy to dose using a measuring spoon

Required quantities:

- in buckets: during the growth phase spread approx. 80 g/20 l bucket evenly twice a year
- on open land: during the growth phase spread approx. 80 g/m² evenly around the plants twice a year

Application period:

Jan	Feb	March	April	May	June	July	August	Sept	Oct	Nov	Dec
-----	-----	-------	-------	-----	------	------	--------	------	-----	-----	-----

Tips:

- Water during longer dry spells, especially younger plants.
- In winter, spray evergreen plants with atomised water and also water the leaves when the ground is frozen. If no water can be supplied from the soil, drought damage can occur.

Dosage of Gärtner's box tree fertiliser:

- 1 handful approx. 50 g
- 1 tablespoon approx. 12 g
