

## Gärtner's compact lawn fertiliser

- organic mineral lawn fertiliser with immediate and long-term effect
- suitable for all ornamental and home lawns
- for even, fast and lasting lawn growth
- its valuable organic content promotes humus formation and activates soil life
- **avoid getting the fertiliser on flagstones, patio slabs, wooden flooring or clothing because this may lead to rust stains**
- spread in still air conditions

### Required quantities:

- spread approx. 50 g/m<sup>2</sup> evenly
- Repeat application every 8 weeks

### Application period:

Jan	Feb	March	April	May	June	July	August	Sept	Oct	Nov	Dec
-----	-----	-------	-------	-----	------	------	--------	------	-----	-----	-----

### Tips:

- Fertilisation is best done after mowing the lawn.
- In dry conditions, water generously after spreading.
- When spreading by hand, spread in a crisscross pattern.

### Dosage of Gärtner's compact lawn fertiliser:

- 1 handful approx. 50 g
- 1 tablespoon approx. 20 g

### Garden spreader dosage:

Appliance:	Setting:	
Gardena 410/411/412/415	5 – 6	The setting recommendations are reference values that should be compared with the actual amount spread.
Gloria 2215/Streuboy S 221	6 – 7	
Wolf WE 250/WE 45	6 – 7	
Wolf WE 251/WE 252	5 – 6	
Wolf WE 500	8
