

Gärtner's garden fertiliser for all types of garden

- organic mineral complete fertiliser
- suitable for all types of garden, such as fruit, vegetables, shrubs and flowers
- balanced nutrient formula promotes even, homogenous growth and good flower, fruit and taste formation
- enriches and invigorates soil and keeps it fertile
- ensures an immediate and long-term effect with its valuable organic content and mineral ingredients
- promotes humus formation and activates soil life

Required quantities:

- vegetables: approx. 150 g/m² before sowing; work gently into the soil
- fruit and berries: spread approx. 150 g/m² on the surface and work gently into the soil
- shrubs and flowers: spread approx. 120 g/m² on the surface around the plants and water

Application period:

Jan	Feb	March	April	May	June	July	August	Sept	Oct	Nov	Dec
-----	-----	-------	-------	-----	------	------	--------	------	-----	-----	-----

Tip:

- When planting for the first time never pour the fertiliser directly into the planting hole, otherwise there is a risk of root burning.

Dosage of Gärtner's garden fertiliser for all types of garden:

- 1 handful approx. 50 g
- 1 tablespoon approx. 20 g
