

## Gärtner's rose fertiliser with trace nutrients

---

- mineral complete fertiliser with valuable trace nutrients
- suitable for all roses and flowering shrubs
- nurtures and strengthens plants and promotes even growth and the formation of numerous, lavish flowers
- shake before use

### Required quantities:

- during the vegetation period add 1/2 dosing cap for 1 litre of irrigation water 1 x weekly
- fertilisation is not required during the growth pause in the winter months

### Application period:

Jan	Feb	March	April	May	June	July	August	Sept	Oct	Nov	Dec
-----	-----	-------	-------	-----	------	------	--------	------	-----	-----	-----

### Tip:

- The best time to fertilise is after a shower, because the soil is then very receptive to fertiliser.

You can find the latest information on fertilisers and gardens on our website.
