

Gärtner's shrub fertiliser

- special organic mineral fertiliser with natural raw materials
- suitable for all bedding and flowering shrubs
- ensures colourful and long-lasting flowers
- promotes humus formation and ensures fertile garden soil
- fulfils the requirements for organic farming

Required quantities:

- New plants: approx. 30 – 40 g/m² (for smaller shrubs and grasses),
approx. 40 – 60 g/m² (for larger shrubs and grasses)
- For maintenance: 1. approx. 30 – 80 g/m² in March/April
2. approx. 30 – 60 g/m² in May/June

Application period:

Jan	Feb	March	April	May	June	July	August	Sept	Oct	Nov	Dec
-----	-----	-------	-------	-----	------	------	--------	------	-----	-----	-----

Tips:

- spread evenly after planting and work gently into the damp soil.
- do not pour the fertiliser directly into the planting hole because direct contact with the roots should be avoided.

Dosage of Gärtner's shrub fertiliser:

- 1 tablespoon 15 g – 20 g
